

Schools IT

RemoteAccess+ for Apple Mac

Connection Instructions

1. Download the '*Cisco AnyConnect Client*' from the following URL:-
<https://ras.nottinghamschools.co.uk/+CSCOU+/ACmac.dmg>
2. Open the downloaded file ACmac.dmg
3. Double click VPN.pkg
4. Click continue, agree and install when asked
5. Once finished, click closed
6. From '*Finder*' go to '*Applications*' and open the '*Cisco*' folder

7. To save time in the future, drag the '*Cisco AnyConnect Client*' shortcut to your desktop

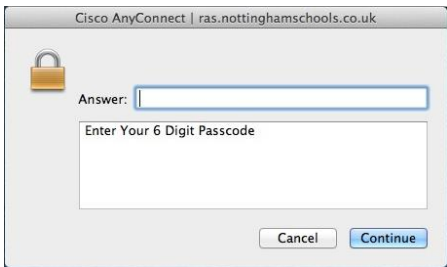

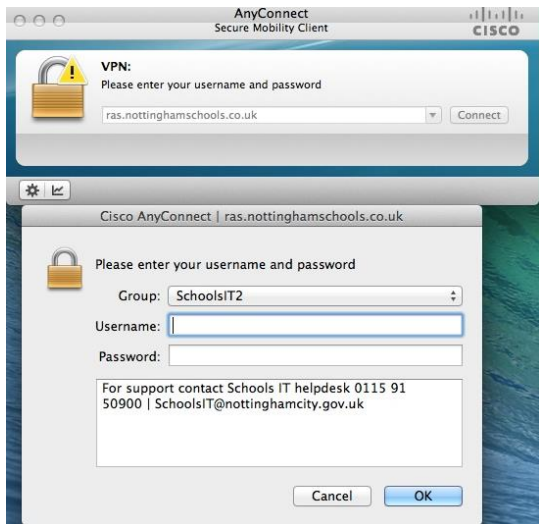

8. Now install '*Microsoft Remote Desktop*' from the AppStore:-
<https://itunes.apple.com/gb/app/microsoft-remote-desktop/id715768417?mt=12>

9. Once installed, to save time in the future, drag the 'Microsoft Remote Desktop' shortcut to your desktop

- 10. To connect to the RemoteAccess+ service, open the 'Cisco AnyConnect Client' and type in 'ras.nottinghamschools.co.uk' and click 'Connect'
- 11. Select your school in the group list, type in your normal username and password and click ok
- 12. Now enter your 6 digit passcode which would have been sent to you via text message. A new code will be sent to you after each login ready for the next.

- 13. Once connected, the 'Cisco AnyConnect Client' will minimise to the dock
- 14. Now open the 'Microsoft Remote Desktop' application. Click the new button. Fill in the 'Connection name' & 'PC Name' as 'RAS' and click the red 'x' in the corner to close.
- 15. Click arrow next to 'My Desktops' to expand selection
- 16. Double click 'RAS' to connect
